CHANDLER, Arizona - FC Arizona and Lifeline Professional Counseling (Lifeline PC) have joined forces to bring mental health resources to FC Arizona families. In an effort to become more than another sports club, FC Arizona has sought a partnership with Lifeline Professional Counseling, one of the Valley's most respected outpatient counseling service providers. With more than 10 years in their respective industries, both organizations have seen a need in recent years to break stigmas associated with mental health and sports and provide access to mental health professionals.

"I've always believed that owning a club has to be more than just soccer, we have to do more for the kids," said owner and president Jamie Landreman about the new partnership. "Sports has risen to a new level, the demand we place on our kids is far greater than ever before, we need to ensure they know how to handle the stress and make sure they have a resource to help them with that," concluded Landreman.

Lifeline PC will begin by creating a curriculum for coaches, who will partake in mental health-specific education and training, that will help identify player needs and foster a healthier playing environment. Lifeline PC is dedicated to serving all who require mental health attention; from standard counseling to intensive outpatient therapy. Lifeline PC's services include counseling for Anger Management, Anxiety & Stress, Domestic Violence, Family Counseling, Grief & Loss, Substance Abuse, Trauma, Veterans & First Responders, Work-Life Balance, and many others.
